

California Earthquake Prediction Evaluation Council (CEPEC)

THE CALIFORNIA EARTHQUAKE PREDICTION EVALUATION COUNCIL

Special Teleconference Session On:

Thursday, January 7, 2016
10:00 AM

This is a Closed Session pursuant to:
Government Code, Title 2, Division 3, Part 1, Chapter 1, Article 9
Section 11126 (f)(9)¹

AGENDA

[Note: Times are approximate. The Chairman may alter the hearing start time or agenda item order during the meeting]

- I. Call to Order (Parrish) [10:00 AM]
- II. Roll Call and Declaration of a Quorum
- III. Declare and Move to Executive Session (Closed to Public)
- IV. New Business [Action]
 - Technical review and analysis of the contents and conclusions in the publication: "*Potential for a large earthquake near Los Angeles inferred from the 2014 La Habra earthquake*", author Andrea Donnellan, et al, as published in AGU Publications Earth and Space Science, October 7, 2015 (corrected version). The findings and conclusions adopted by the CEPEC will be transmitted to the Director of the Office of Emergency Services for any further actions.
- V. Adjournment

¹ §11126(f)(9) – In addition to subdivisions (a), (b), and (c), nothing in this article shall be construed to do any of the following: Prevent the California Earthquake Prediction Evaluation Council, or other body appointed to advise the Director of Emergency Services or the Governor concerning matters relating to volcanic or earthquake predictions, from holding closed sessions when considering the evaluation of possible predictions.
